

PAKISTAN SELF-ASSESSMENT WORKSHOP

FINAL SCORES ON REPORTING FORMAT (REF.4)

Process 1: Bringing people in the same space

Score each step: 0 (not applicable); 1 (started); 2 (on-going); 3 (nearly completed); 4 (completed)

STEP	FINAL PLATFORM SCORE (Morning Session)	Score for Government	Score for UN network	Score for Donors	Score for CSO network	Score for Business network	Score for Academia network
1. Select/develop coordinating mechanisms at country level	3	2	4	3	2	1	0
<i>Explanations: What activities/interventions underly this scoring?</i>	Government Sun National Focal point has been nominated and is coordinating SUN work at national level. High level political commitment is in place .e.g. SUN launch, National Nutrition Survey	Steering committee functional. Inter-sectoral Nutrition Technical working group (TWG) having members from all sectors is notified and functional. TWG has been expended to	SUN UN system Network (WFP, UNICEF, WHO & FAO) established through Strategic Priority Area 6 (SPA-6) Food security & Nutrition under One UN Programme OP II. Technical Working Group & Steering	Nutrition Development Partners coordination is ongoing. It was established in Sep. 2011 upon request of the Government's economic Affairs Division at the D-10 Meeting, to align donor support to strengthen efforts	3 meetings for formation of CSA. National Consultation on June 11 CSA will be established within 2 months	Discussion is being started and Initial interest shown by various national and multi-national business entities	Academia network has not been notified under SUN yet.

	<p>(NNS) and High level participation from government.</p> <p>High level commitment is structured at UN level, supporting SUN MSP.</p> <p>Committees and working groups at provincial (Inter-sectoral working group, core group and steering committees) and National level coordinating mechanism in place.</p>	<p>include other members which were initially not notified in Sindh Province.</p> <p>Meeting to develop operational plans conducted, core committee for operational plan has to be notified in Sindh province.</p>	<p>Committees with UN country representatives/directors engaged.</p> <p>Focal agencies identified as WFP – convener & UNICEF Co-convener.</p> <p>Periodic monthly meetings and extraordinary meetings as needed are part of coordinating mechanisms.</p> <p>Good coordination & alignment with Government priorities in nutrition.</p> <p>Annual Work plans and reporting harmonized mechanisms are in place</p>	<p>addressing malnutrition.</p>			
<p>Suggestions for Improvement</p>	<p>Improvement of communication and coordination of MSP at provincial level.</p> <p>Awareness session at academia level to inform about SUN</p> <p>Inclusion of SUN in</p>	<p>In Regions (Federally Administered Tribal Areas (FATA) where Inter-sectoral activities have not been affectively under taken, support in the form of consultant may be provided.</p>	<p>To engage highest UN representative (i.e. country representative or UN Resident Coordinator) in the SUN UN Network to increase commitment/prioritize SUN work.</p> <p>Continue efforts in</p>	<p>As the group expanded, including additional interested nutrition stakeholders on one hand, and to renew efforts towards resource mobilization, quarterly meetings are envisaged for SUN key group</p>	<p>Inclusiveness</p> <p>Coordination at Provincial level</p>	<p>Notification of the SUN Business Network (SBN) focal Point at National and Provincial level</p> <p>Followed by Notification</p>	<p>Academia network should be notified on priority basis under SUN, with clear structure and roles.</p>

	curricula of relevant academic institutions involving HEC for endorsement.	Support for Workshop to Development common reporting format should be provided at provincial level. Strong linkage between Federal and Provinces needs to be establishing for flow of information. Quarterly meeting of provinces at federal level for sharing of progress.	strengthening coordinating at national and provincial levels. REACH to support government in SUN coordination and facilitation	donors.		and Regular Coordination mechanism	
2. Coordinate internally and broaden membership /engage with other actors for broader influence	2	2	3	3	3	0	0
<i>Explanations: What activities/interventions underly this scoring?</i>	Coordination is on-going process (Government and UN level completed) while (Academia, Business and CSO just began) at different stages and is involving new members	Same as above	Other UN agencies (UNESCO & UN WOMEN) involved in the SUN process through the SPA 6 forum. Other partners engaged through the Nutrition Development	Development partners group broadened over the recent past included various partners including UN, INGOs, and more recently also national NGO, Business and other interested nutrition stakeholders.	Engaged CSOs and CSOs coalitions	The work has yet to be initiated.	-

	enhancing scaling up goals.		<p>partners forum</p> <p>Regular exchange of information within the UN partners is in place e.g. Steering Committees (Country Directors/World Representatives), TWGs</p> <p>All UN agencies aligned with UNDAF</p> <p>Common narratives pertaining to SUN in place</p>				
Suggestions for Improvement	Improvement of Internal coordination at all MSP levels i.e. district, provincial and national level.	Same as above	<p>Work more to engage other stakeholder's e.g. other sectors/ new networks- Business, academia, CSOs.</p> <p>More involvement / awareness at provincial level</p>	Engage non-traditional nutrition donors, revisit ToRs and align with SUN donor group members and conveners tasks. Establish regular interaction and joint decisions with SUN (or likeminded) donors to revisit the membership and SUN support.	Increased engagement of Provincial CSOs	Following identification/notification of the MSP forum for business network at national and provincial level	
3. Engage within / contribute to MSP	2	2	3	4	2	0	0
<i>Explanations: What activities/interventi</i>	There is SUN country MSP that is	Same as above	Government and UN agencies have	Very strong in the process of	SUN Launch	Create mechanism	-

<p><i>ons underly this scoring?</i></p>	<p>regularly interacting at federal level (Government and development partners) and global level at SMS.</p>		<p>regular & consistent interaction at Federal – Provincial level.</p> <p>Coordinated mechanism in place e.g. harmonized prioritization of issues, participation in meetings/task team.</p> <p>Provide technical assistance to all relevant stakeholder to help in consensus building around interest of MSP</p> <p>Contributed in Multi-sectorial policy guidance notes development by provincial governments.</p> <p>Contributed to joint efforts to advocate on nutrition related issues.</p> <p>Track & report annual reporting e.g. SPA 6 reporting mechanism</p>	<p>advocating for addressing problems of malnutrition and for scaling up nutrition, awareness raising at highest political level, high level advocacy, support to policy developments and evidence generation.</p>	<p>Vision 2025</p>	<p>to link with national and global business network</p>	
---	--	--	--	--	--------------------	--	--

Suggestions for Improvements.	Every relevant stakeholder must be involved/engaged at national and provincial level.	Same as above	Same as above	Engaging with other sectors (non-health sectors and actors) to embed and strengthen nutrition in other sectors	Involvement of more national and provincial level organisations to promote accountability and carry out advocacy	Regular use of platform for interaction on nutrition related issues among sector-relevant stakeholders from SBN	Seminars may be conducted at various relevant academic institutions for engaging them and utilising this resource for achieving SUN objectives
4. Track and report on own contribution to MSP	2	2	3	2	1	0	0
<i>Explanations: What activities/interventions underly this scoring?</i>	Reports and Publications are in process but need to be streamlined and regular updated dissemination. Sharing of experiences interprovincial and across the country.	Same as above	Agreed reporting formats and exercise reports e.g. other than individual agency reporting also joint reporting	Tracking is ongoing through donors' internal mechanisms and between donors and Economic Affairs Division at the highest level as well as informally at the nutrition development partners group (NDP) as informal reporting mechanisms (annual reports, partner matrix).	In process of forming CSA	-	-
Suggestions:	Create a Website (online interactive platform) at national level for SUN or add a page	Same as above	To improve the reporting mechanisms further	Formalize and align to SUN objectives		To establish the business network which functions as	It will be difficult to ascertain, even after notifying academia

	in international SUN website.					a platform for discussion among business representatives and provision of benchmark for relevant topics at global level.	network. So, a clear mechanism and indicators need to be chalked out the contribution of academia in SUN
5. Sustain Impact of the MSP	2	2	3	2	2	3	0
<i>Explanations: What activities/interventions underly this scoring?</i>	<p>The SUN MSP has been incorporated under Pakistan Vision 2025 and % year Plan.</p> <p>Each Province is having nutrition inter-sectoral approach with policy guidance notes had been developed.</p> <p>Nutrition Inter-sectoral provincial operational plans are in process.</p>	Same as above	<p>Multi-year commitment e.g. individual UN agency commitment Protracted Relief Recovery Framework (PRRO), Country Program Framework (CPF), Joint Planning Review Mission (JPRM), Multiyear Work Plan (MYWP) & Joint commitment under SPA6 2014-2017</p> <p>Institutional memory in place irrespective of the leadership turn</p>	Commitments are sustained as per program implementation needs.	<p>Follow up on Breastfeeding legislation</p> <p>Due to CSOs/ Nutrition Development Partners advocacy, Government is working on implementation of SUN</p>	-	-

			over				
<i>Suggestions for improvement</i>	Increase political pronouncements and commitments translated gradually in public resource allocation. Incorporate other sectors in MSP & increase commitment at higher level from Education, Agriculture, Local government, Science and Technology.	Same as above	Joint work towards showing tangible results and impact	Use existing and recommended mechanisms to sustain commitments among donors and government	Continued advocacy More coordination by CSOs	Once the above structure are in place, document successful case studies	The academia is the only network in SUN network groups, which can have sustainable role over longer period of time, if properly engaged

Process 2: Coherent policy and legal framework

Score each step: 0 (not applicable); 1 (started); 2 (on-going); 3 (nearly completed); 4 (completed)

STEP	FINAL PLATFORM SCORE (Morning Session)	Score for Government	Score for UN network	Score for Donor network	Score for CSO network	Score for Business network	Score for Academia network
1. Analyze existing nutrition-	3	1	4	4	2	0	2

relevant policies and programs							
<p><i>Explanations: What activities/interventions underly this scoring?</i> (Copy post-its written during workshop)</p>	<p>Policy guidance notes for provincial multi-sectoral nutrition strategies developed/endorsed.</p> <p>Sindh adopted inter-sectoral nutrition strategy.</p> <p>Region under process</p>	<p>Intersectoral Nutrition Policy Guidance developed and endorsed</p> <p>Intersectoral Nutrition Strategy developed. Endorsed and disseminated in Sindh province.</p> <p>Provincial and district Task force for Sanitation (Local Govt and Health) notified in Sindh.</p>	<p>Current joint programs in place, e.g. CMAM and direct support to Intersectoral Nutrition provincial Policy guidance notes; Advocacy in developing USI act(Sindh); Breast feeding law enacted in three provinces; National Agriculture and Food security policy in process.</p> <p>Under SPA -6 (Food Security and Nutrition) four program proposals were developed jointly to raise new funds for integrated food security and nutrition programs with intersectoral approach focused more in prevention and long term approaches which includes capacity development activities, policy, advocacy and evidence building</p>	<p>Donor invested intensively in evidence generation, situation analysis, dissemination and recommended way forward (i.e. NNS 2011, IDS, Political Economy Analysis, donor's internal strategy developments, advocacy workshops).</p>	<p>Review of Punjab Food Authority Rules</p> <p>Analysis of breastfeeding laws</p>	<p>-</p>	<p>Academia has been involved at various levels in analysing policies and programs, but without any formal infrastructure</p>

			support; technical support to SUN coordination/governance.				
<i>Suggestions made for improvements?</i>	Advocacy with political leaders, engaging media and CSOs.	Same as above	All approved relevant policies and strategies should be ideally implemented through UN Country Programs that have a more long term perspective	Economic consequences of malnutrition and sectoral roles and potentials addressing malnutrition areas to be analyzed if recommended.	More Studies/analysis Analysis of sectoral Strategies Feedback by CSOs to relevant policies Review of Food Security Laws	Participate in the multi stakeholder meeting to share private sector prospective.	Academia involved in provinces in all sectoral groups will enhance this role in future and in an organised manner
2. Mainstream nutrition in own policies and strategies	1	1	3	2	3	0	1
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Somehow analysis of Sectoral Policies started-(agriculture)	Same as above	SPA-6 Inter-sectoral approach. SUN approach is crosscutting all UN nutrition supported programs and initiatives, e.g. Polio plus (Programmatic and geographical convergence) UNICEF; Livelihood and Nutrition integration (WFP). Agriculture and nutrition integration (FAO).	Progressively incorporating nutrition into sector policies (health, more as well into agricultures etc.)	School Health & Nutrition (SHN) Drop in centres IYCF counselling	-	Various institutions have started some programs relevant to nutrition and hence they have somehow prioritised in certain institutions

<i>Suggestions made for improvements?</i>	Detailed analysis of sectoral strategies required (Social Protection, Agriculture, WASH, Health and Education) Punjab model should be studied and replicated.	Same as above	Improve mainstreaming nutrition	Strengthen efforts for a stronger incorporation of nutrition in non-health sectors. Support the translation from policy to action.	CSOs Country strategies should be more nutrition sensitive	Businesses to incorporate nutrition into their plans	A letter from SUN focal person and/or meeting with administration of institutions will certainly help to mainstream nutrition in their agenda
3. Coordinate / harmonize member inputs in policy / legal framework development	1	1	4	1	2	0	1
<i>Explanations: What activities/interventions underly this scoring?</i> (Copy post-its written during workshop)	Multi sectoral Nutrition Action Plan pending since 2013.	Same as above	Multi-isectoral national nutrition action plan 2013 developed and in process of approval with UN alignment. Coordination for SPA6 to avoid duplication and to align relevant resources. CMAM Guidelines adopted to national context	Discussed and in preparation	Participation in Policy Guidance notes	-	Academia from some institutions was involved and their inputs were incorporated in policies, however, this needs to be more streamlined in consultations with main academia in country should be help clarifying roles and responsibilities of network members in a) supporting the advocacy, information

							sharing, monitoring and evaluation and research work for SUN as well as b) in capacity development, nutrition planning and policy experts (higher education, in service or non-formal - post graduate training course).
<i>Suggestions made for improvements?</i>	Multi sectoral Nutrition Action Plan should be approved and replicated to provinces.	Same as above	Improve integration and convergence and develop legal framework which can enhance program and policies effects/outcomes	Sector engagements to be enhanced.	Involvement of CSOs should be formalised	Simulate discussion and contribute ideas to the policy debate that may promote responsibility	-
4. Influence policy/legal framework development through advocacy/contribution	1	1	3	2	3	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Breastfeeding laws enacted in three provinces (Khyber Pakhtunkhwa Law vetted) Universal Salt Iodization (USI) Law passed by Sindh	Same as above	Contribution to several advocacy activities to place Nutrition at the centre of the development agenda. SUN launch. Integrated Planning	Policies and strategy developments strongly support nutrition and transfer into actions is strongly supported.	Breastfeeding legislation in three provinces (Khyber Pakhtunkhwa Law vetted) Infant feeding board at federal level, Punjab and Sindh Universal Salt Iodization (USI) Act	-	-

	Assembly		Commission Performa One (PC-I). Advisory services.		passed in Sindh Parliamentarians briefings in 4 provinces		
<i>Suggestions made for improvements?</i>	Continuous advocacy with parliamentarians involving media and CSOs.	Same as above	Continue support in terms of advisory services and advocacy in different forum (e.g. media, technical and political)	Embedding nutrition in sectoral policies, strategies to be enhanced	Sustained advocacy	Not applicable	This aspect can be very well handled by academia and this network might be more influential in advocacy, once they start it
5. Disseminate policy and operationalize / Enforce legal framework	1	1	3	2	2	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Launch of Sindh inter sectoral strategy. Press briefing of Baluchistan breastfeeding law. Meeting for drafting rules of business for Punjab infant feeding board.	Same as above	Support to USI ACT dissemination among stakeholders; Inter-sectoral strategy launch; Awareness of Breast feeding law through media.	Policy and strategies dissemination strongly supported, operationalization foreseen	Sindh Inter-sectoral nutrition Strategy launch Balochistan Government disseminated information on breastfeeding laws through press briefing Punjab food authority imposed penalties to violators	-	-
<i>Suggestions made</i>	Dissemination of	Same as above	Make mandatory	Continue support	CSOs should be	Not applicable	

<i>for improvements?</i>	strategies after approval in rest of the provinces. Orientation seminars on breastfeeding laws all over the country.		to incorporate and disseminate all approved strategies and policies.	the operationalization	engaging with enforcement agencies Awareness for more complaints		
6. Track and report results for steering and learning / Sustain policy impact	1	1	2	1	1	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	SUN global gathering participated by member planning commission/ National SUN Coordinator.	Same as above		Just started, Government – donor nutrition programs have clearly defined indicators, those programs (PC-I) are just about to start. Tracking and Impact Evaluation is foreseen.	Complaints by consumers	-	-
<i>Suggestions made for improvements?</i>	Quarterly provincial and federal reviews.	Same as above	Improve reporting/make reporting and recording mandatory.	Proactively track implementation as programs start	Complaints mechanisms should be strengthened	Not applicable	-

Process 3: Common Results Framework for National Nutrition Plan (aligned programming)

Score each step: 0 (not applicable); 1 (started); 2 (on-going); 3 (nearly completed); 4 (completed)

STEP	FINAL PLATFORM	Score for Government	Score for UN network	Score for Donor network	Score for CSO network	Score for Business	Score for Academia
------	----------------	----------------------	----------------------	-------------------------	-----------------------	--------------------	--------------------

	SCORE (Morning Session)					network	network
1. Align own programs to national nutrition-relevant policies	2	1	4	1	2	0	2
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Agriculture, water, sanitation Interventions are aligned with the policy/strategy	Inter-sectoral Nutrition activities with coordination between health, Wash and food security in 3 district of Sindh been implemented. Bio Fortification of wheat with zinc and iron in Punjab and centre. Provincial and district plan for Sanitation (Local Government and Health) notified in Sindh.	SUN UN Network nutrition sensitive and specific interventions aligned with the National Nutrition Policies. Agreed distribution of roles among UN partners based on agency mandates & comparative advantages	Resources are made available as per Government (SUN) priorities.	Pakistan Poverty Alleviation Fund (PPAF) has integrated nutrition in its strategic plan	-	In general: As academia network has not been notified under SUN. However, academia has started some nutrition training programs, nutrition professional education programs at bachelors and post-graduate level. Similarly academia has started organizing seminars, workshops, conferences and awareness campaigns and there have been more than 20 events in past couple of years especially in Punjab.

<p><i>Suggestions made for improvements?</i></p>	<p>1. There should be a smooth linkages between Federal and Provinces Policies</p> <p>2. More frequent meetings between the two during the year</p> <p>3. There should be policy and guidelines for International reporting and should be shared with provinces at an early stage</p> <p>4. Expand the network of academia by including the general universities having the disciplines of social sciences etc.</p> <p>5. Steering committee at P&DD should align the CRF for all the sectors/stakeholders</p>	<p>Same as above</p>	<p>Sustain and improve further the process</p>	<p>Follow up with Government on development of national nutrition plan (umbrella nutrition policy framework) and support required.</p>	<p>Wider dissemination of national nutrition policies CSOs should be orientated about importance of nutrition</p>	<p>Business Network to identify their role in nutrition which contributes to national plan</p>	
<p>2. Translate policy / legal framework in Common Results</p>	<p>1</p>	<p>1</p>	<p>2</p>	<p>1</p>	<p>0</p>	<p>0</p>	<p>0</p>

Framework (CRF) for SUN							
<i>Explanations: What activities/interventions underly this scoring?</i> (Copy post-its written during workshop)	Food security, sanitation, bio-fortification, vouchers	Same as above	In process of supporting the government in development of CRF along with Nutrition Development Partner (NDPs) e.g. Sharing of knowledge, international standards and experiences; provision of technical subject matter expertise.	Provinces advanced in policy and strategy work, federal umbrella policy foreseen, donor support to be aligned once in place	-	-	-
<i>Suggestions made for improvements?</i>	Common suggestions	Same as above	Continue support and help to the government to complete the process	Encourage federal government towards a CRF (umbrella nutrition policy framework)	Policies/legal framework should be translated as per CRF (whenever the CRF is available)	Not applicable	-
3. Organize implementation of CRF	1	1	1	1	0	0	0
<i>Explanations: What activities/interventions underly this scoring?</i> (Copy post-its written during workshop)	Health & Sanitation doc for intersectoral Health, Food security and WASH doc Targeted Subsidy for poor	Same as above	In process of assessing the support needs required by the government for developing the CRF and its implementation.	There is no CRF yet, however, common objectives of addressing malnutrition are supported focusing on declared identified cost effective interventions.	-	-	-

<i>Suggestions made for improvements?</i>	Common suggestions	Same as above	Continue the support and help the government to complete the process	Advocate and encourage development of umbrella policy framework and actions	-	Not applicable	Academia network should be given key role in implementation of CRF
4. Manage implementation of CRF	1	1	1	1	0	1	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Monitoring & Reports	Same as above	Monitoring mechanisms are in places in individual agencies and Joint mechanisms that support the national action plan	There is no CRF yet, however, common objectives of addressing malnutrition are supported focusing on declared identified cost effective interventions.	-	-	-
<i>Suggestions made for improvements?</i>	Common suggestions	Same as above	Continue the support and help the government to complete the process	n/a	-	Not applicable	Academia can be very effective especially research based M&E framework of implementation of interventions
5. Track and report implementation results for steering and learning/evaluate to sustain impact	1	1	3	1	0	3	0
<i>Explanations: What activities/interventions underly this</i>	-	Same as above	UN supported programs are regularly evaluated	Resources are tracked, once a CRF is in place, reports	-	-	-

<i>scoring?</i> (Copy post-its written during workshop)			and lessons are shared at provincial, country and international levels. Supporting the government in collection of data e.g. National Nutrition Survey (NNS), surveys, assessments & surveillance.	can be generated as per results framework.			
<i>Suggestions made for improvements?</i>	Common suggestions	Same as above	Continue and improve quality support and help the government to complete the process	Support the development of an umbrella policy framework based on provincial policies/strategies.	-	Create and share through SUN Business Network (SBN) online platform case studies and lessons learnt on private sector's contribution to improve nutrition donors on regular basis.	Tracking and evaluation can be easily handled if academia is actively involved

Process 4: Financial tracking and resource mobilisation

Score each step: 0 (not applicable); 1 (started); 2 (on-going); 3 (nearly completed); 4 (completed)

STEP	FINAL PLATFORM SCORE (Morning	Score for Government	Score for UN network,,	Score for Donor network	Score for CSO network	Score for Business network	Score for Academia network
-------------	--------------------------------------	-----------------------------	-------------------------------	--------------------------------	------------------------------	-----------------------------------	-----------------------------------

	Session)						
1. Assess financial feasibility	1	1	3	1	1	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	A very extensive System for Financial Tacking is available with Government However, it is rate as '1', as the system is not in place for nutrition allocations and utilisation, in addition, development partners have not yet established any tracking system for development investments.	Nutrition Sensitive PC-Is developed in all provinces mainly under health sector PC-I for Agriculture and water in Sindh approved. Budget allocation for sanitation project (Health and Local Government) has been approved for 3 districts by local Government Sindh. Allocation of Budget for implementation of other Nutrition sensitive activities is under process in Sindh.	Nutrition spending of UN Network shared with the government	Needs assessments done at organizational level, less for the public policy level.	Nutrition specific budget analysis	-	-
<i>Suggestions made for improvements?</i>	Assessment of existing tracking and reporting structure would help to establish a broader system (multiple sectors, multiple constituencies or	Same as above	Continue in improvement of the process	Support an analysis of economic consequences of malnutrition and needs/costs to reduce stunting significantly (i.e. 50%) by the year 2025. Develop costing models, direct nutrition	-	Not Applicable	-

	<p>partners).</p> <p>The Financial Tracking System of Government shall include Nutrition Specific Parameters for Transparency and Accountability.</p> <p>Health sector can be tracked – but there is a need to include other sectors.</p> <p>A financial tracking and mapping system is to be developed as a next step. It should build on the government system, be owned and managed by the government. Partners will align and comply with the system to be established.</p>			<p>interventions, nutrition sensitive interventions.</p>			
2. Track and (transparently) accounting of spending	1	1	4	1	1	0	0
<i>Explanations: What activities/interventions underly this scoring?</i> (Copy	Donor Support; and Informal sector resources need to	Same as above	Internal and external audit in place as part of individual agencies	Internal – informal system in place, reporting to Economic Affairs	Budget analysis by Save the Children	-	-

post-its written during workshop)	be tracked as well		regulations.	Division (EAD) in place.			
<i>Suggestions made for improvements?</i>	Financial tracking and mapping system led by the Government to be established. The system should transparently track allocation and utilisation of all resource, public sector and nutrition development partners.	Same as above	Continue in improvement of the process	Formal system to be established once plans are in place	-	To track the commitment of business network members to support scale-up nutrition.	-
3. Scale up and align resources (incl. filling the gaps)	1	1	3	1	0	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>		Same as above	UN Network assessing additional financial needs and endeavouring for resource mobilization e.g. flagships program proposals under SPA-6. Also identifying gaps.	Commitments can be enhanced if implementation capacity is stronger.	-	-	-
<i>Suggestions made for improvements?</i>	Development of Common Result Framework Operational Plans	Same as above	Continue in improvement of the process	Support a needs assessment for nutrition in non-health sector. Engage with	-	Assist in making a business case for investment in nutrition program	-

	for Priorities and interventions with clear timelines.			additional donors for scaling up nutrition in non-health sector			
4. Honour commitments (turn pledges into disbursements)	2	1	3	1	0	0	0
<i>Explanations: What activities/interventions underly this scoring? (Copy post-its written during workshop)</i>	Commitments are offered and made available by donors, however, implementation capacity needs to be enhanced to ensure an effective – efficient implementation and utilisation of resources offered.	Same as above	Funding against MYWP, JPRM, CPF and PRRO are met to the maximum possible extents, Project Cooperation Agreements (PCAs), Field Level Agreements (FLAs), Direct Financial Co-operations (DFCs) and Letter Of Understandings (LOUs) etc.	Commitments, as Multi Donor Trust Fund (MDTF) plus new commitments offered	-	-	-
<i>Suggestions made for improvements?</i>	Operation plans with interventions priorities by sector, geographical interventions areas, timelines and resource required should form the basis for further concept notes and project proposals to donors.	Same as above	All work plan programs which should be aligned.	Advocate for more donors invest into MDTF/New five year plan (mainly multi-sectoral). Support the Government in strengthening nutrition structures at all levels.	-	Commitment to be made by each business entity.	-

5. Ensure predictability / sustain impact / multi-year funding	1	1	3	2	2	0	0
<i>Explanations: What activities/interventions underly this scoring?</i> (Copy post-its written during workshop)	At the beginning of the process, therefore rated as "1". The number of public multi-year sector projects is just a few. However, commitments for those projects are available for the full duration.	Same as above	Multi-year funding e.g. MWYP, CPF, PRRO, JPRM however UN can't ensure predictability of funds because depends on donor contributions	Multi-year funding is committed for nutrition in health; agriculture and WASH under preparation	-	-	-
<i>Suggestions made for improvements?</i>	Engage in long term flexible domestic contribution. Donors can increase longer term commitments, if operational plans and project proposals submitted.	Same as above	Continue in improvement of the process towards sustaining impact	More commitments can be ensured once operational plans and scaling up plans are in place (approved)	-	To periodically assess the private sector contributions to national plans to scale-up nutrition	-
